

D:/source/repos/EventInput
Project/class/input/KeyboardID.h

```
graph BT; A[D:/source/repos/EventInput/Project/class/input/InputEvent.cpp] --> B[D:/source/repos/EventInput/Project/class/input/KeyboardID.h]; C[D:/source/repos/EventInput/Project/class/input/Keyboard.cpp] --> B;
```

The diagram illustrates a file dependency structure. At the top is a grey rectangular box representing a header file. Below it are two white rectangular boxes representing source files. Two blue arrows point from the source files up to the header file, indicating that both source files include the header file.
